POST SALES SERVICES

1 MAT SYSTEM

Removes ice and snow on ramps

2 MAT SYSTEM ASFALTI

Removes ice and snow on asphalt

3 SINGLE SUPPLY

Removes ice and snow on stairs, walkways and solar pannels

4 SNOWFREE SYSTEM

Removes ice and snow on roofs, gutters and downpipes

5 NO FROST PIPE SYSTEM

Prevents pipes from freezing

6 LOR MAT SYSTEM

Electric underfloor heating system

7 LOR MAT SYSTEM ALU

Electric heating for wooden floors

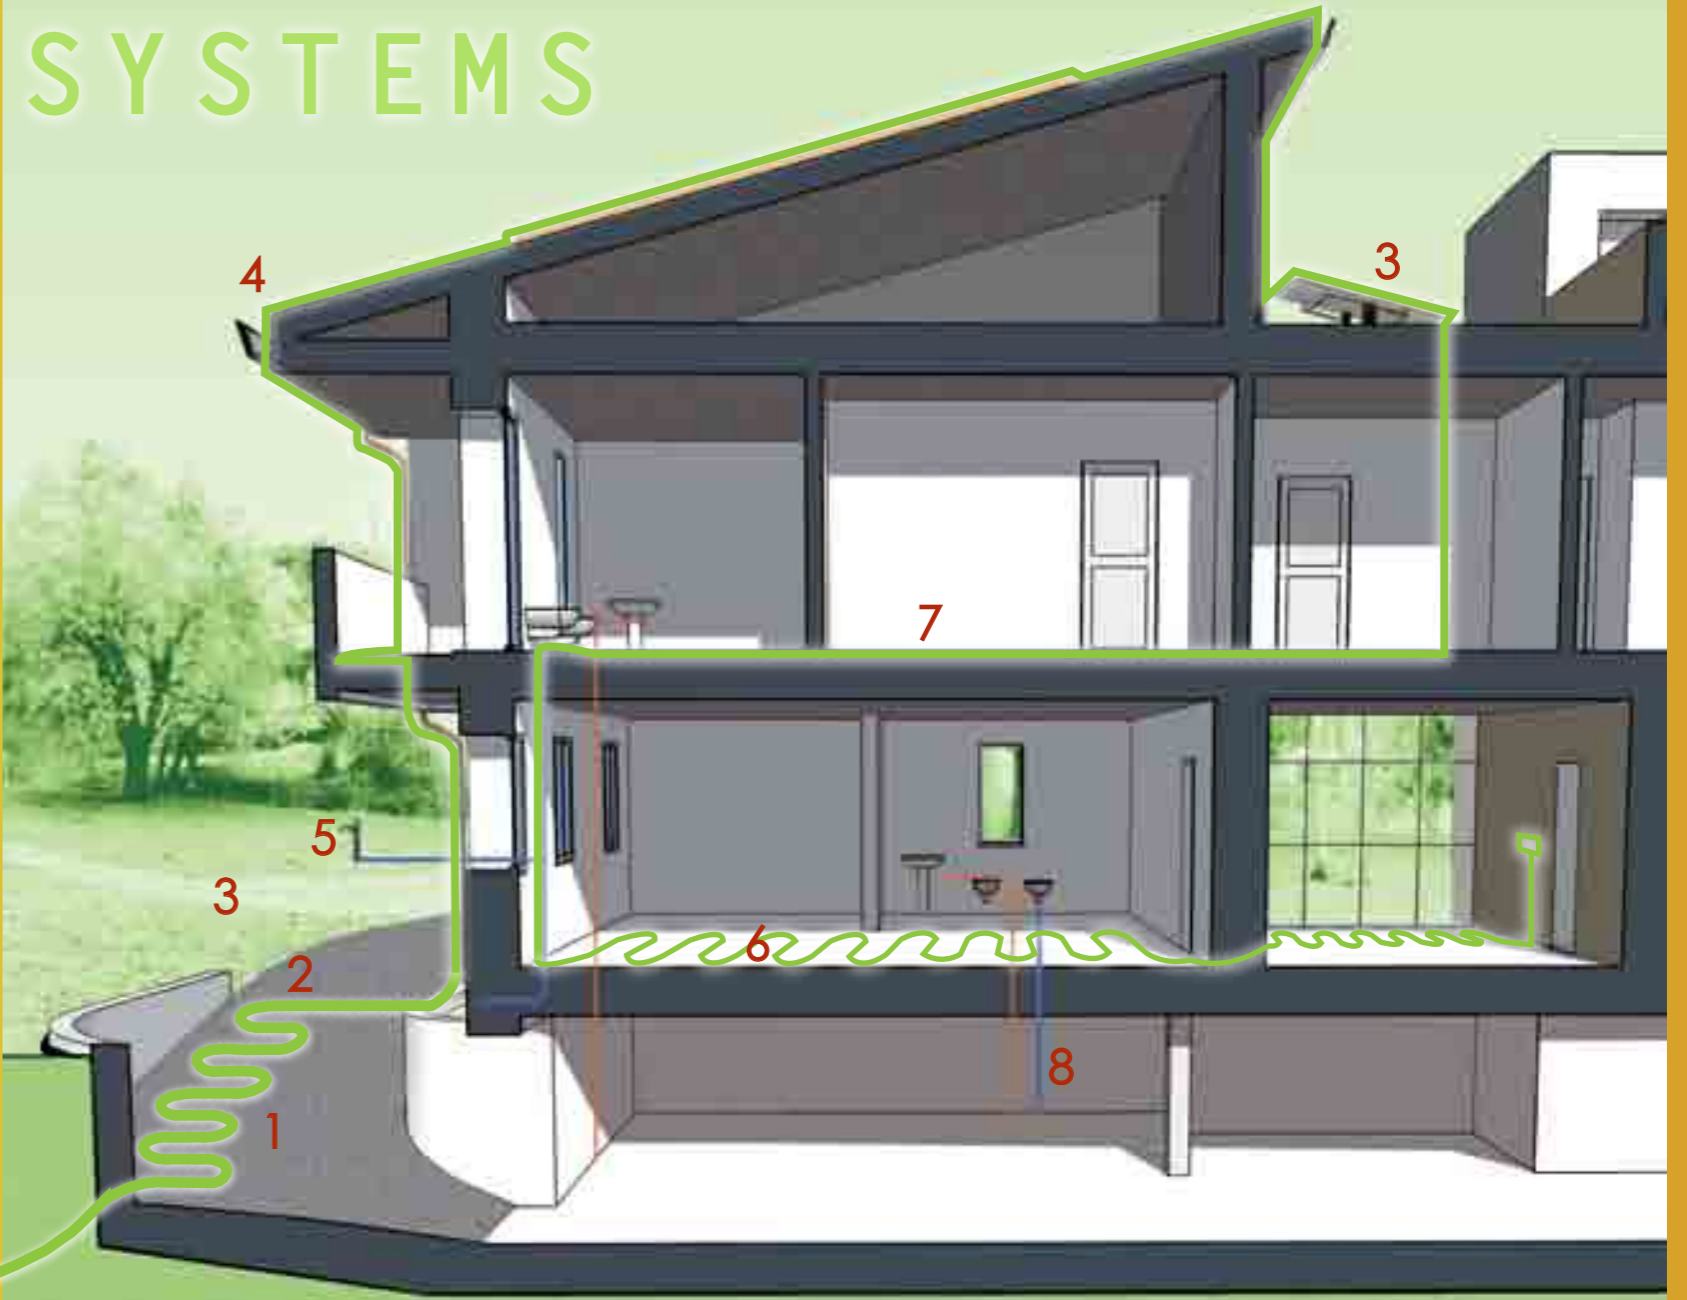

8 WATER HEAT SYSTEM

Mantains water hot in plumbing system

SYSTEMS

quick assembly

flexibility

economical installation

LORENZONI

low operating costs

maintainable

durable

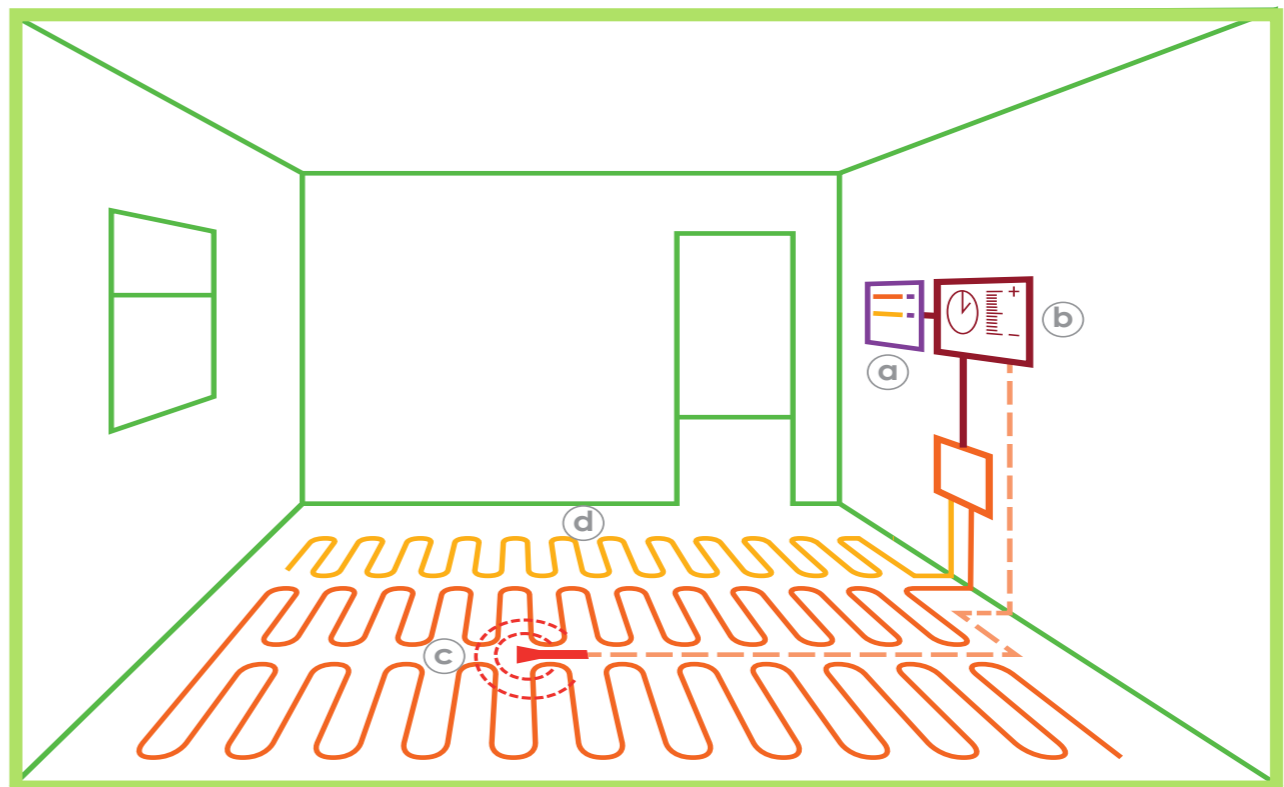

radiant

non-magnetic

low operating temperature controlled

FEATURES

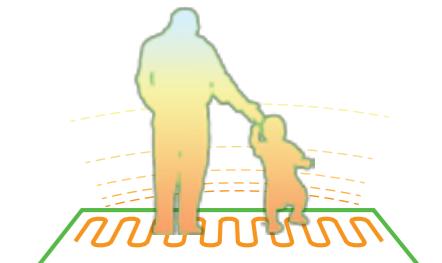

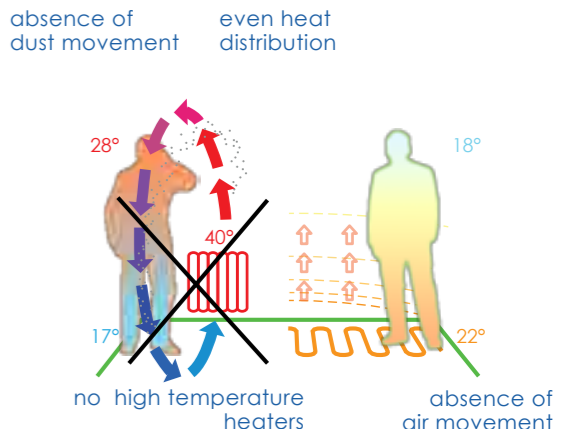

a) Control unit b) Programmable thermostat c) Detection system sensor d) Heating cables

To insert in the general electric panel

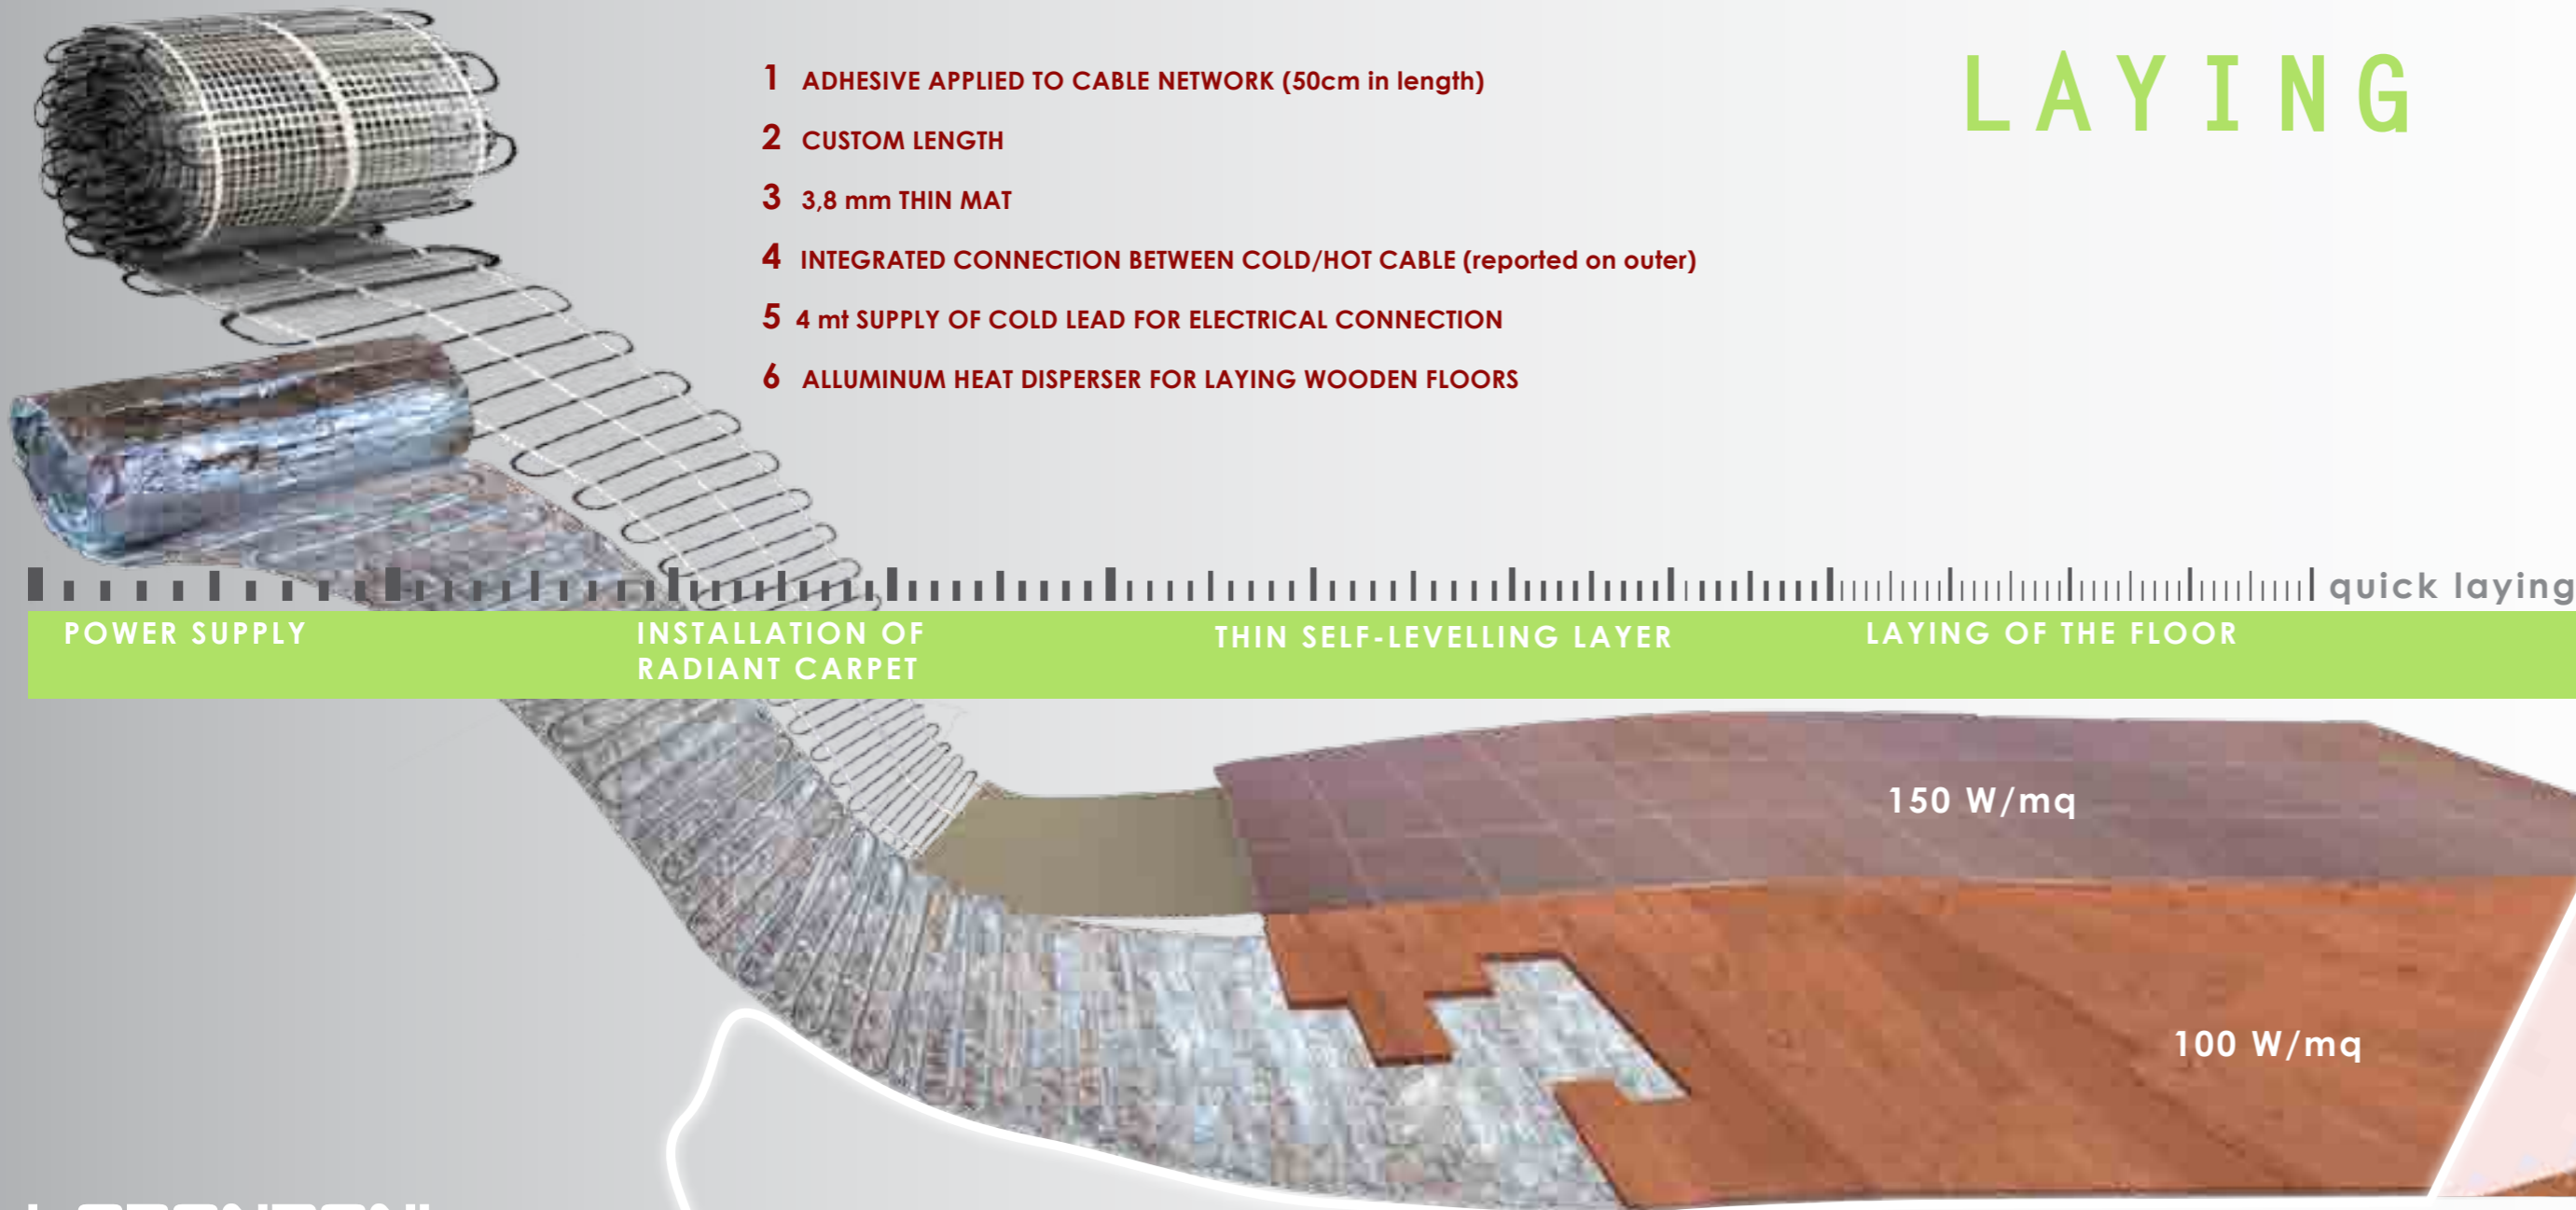

Measures floor temperature

Heat transfer by radiation through low-temperature heating system.

LAYING

- 1 ADHESIVE APPLIED TO CABLE NETWORK (50cm in length)
- 2 CUSTOM LENGTH
- 3 3,8 mm THIN MAT
- 4 INTEGRATED CONNECTION BETWEEN COLD/HOT CABLE (reported on outer)
- 5 4 mt SUPPLY OF COLD LEAD FOR ELECTRICAL CONNECTION
- 6 ALLUMINUM HEAT DISPERSER FOR LAYING WOODEN FLOORS

VERSATILITY

THE THINNESS OF THE ELECTRIC CARPET FULLY MEETS THE NEEDS REQUIRED IN REMODELING WORKS, RENOVATIONS AND IN SPECIAL APPLICATIONS SUCH AS GREENHOUSES AND CONSERVATORIES.

EFFICIENCY

THE SYSTEM IS DISTINGUISHED BY THE UNIQUE ABILITY TO QUICKLY BRING THE SURFACE TEMPERATURE AND THE ENVIRONMENT TO THE DESIRED, EVEN THOUGH A DISCONTINUOUS AND TIMED USE: ESSENTIAL QUALITIES IN CASE OF EXTERIOR SURFACES APPLICATIONS AND TO HEAT TEMPORARY HOMES, HOLIDAY HOMES, OFFICES AND PUBLIC PLACES.

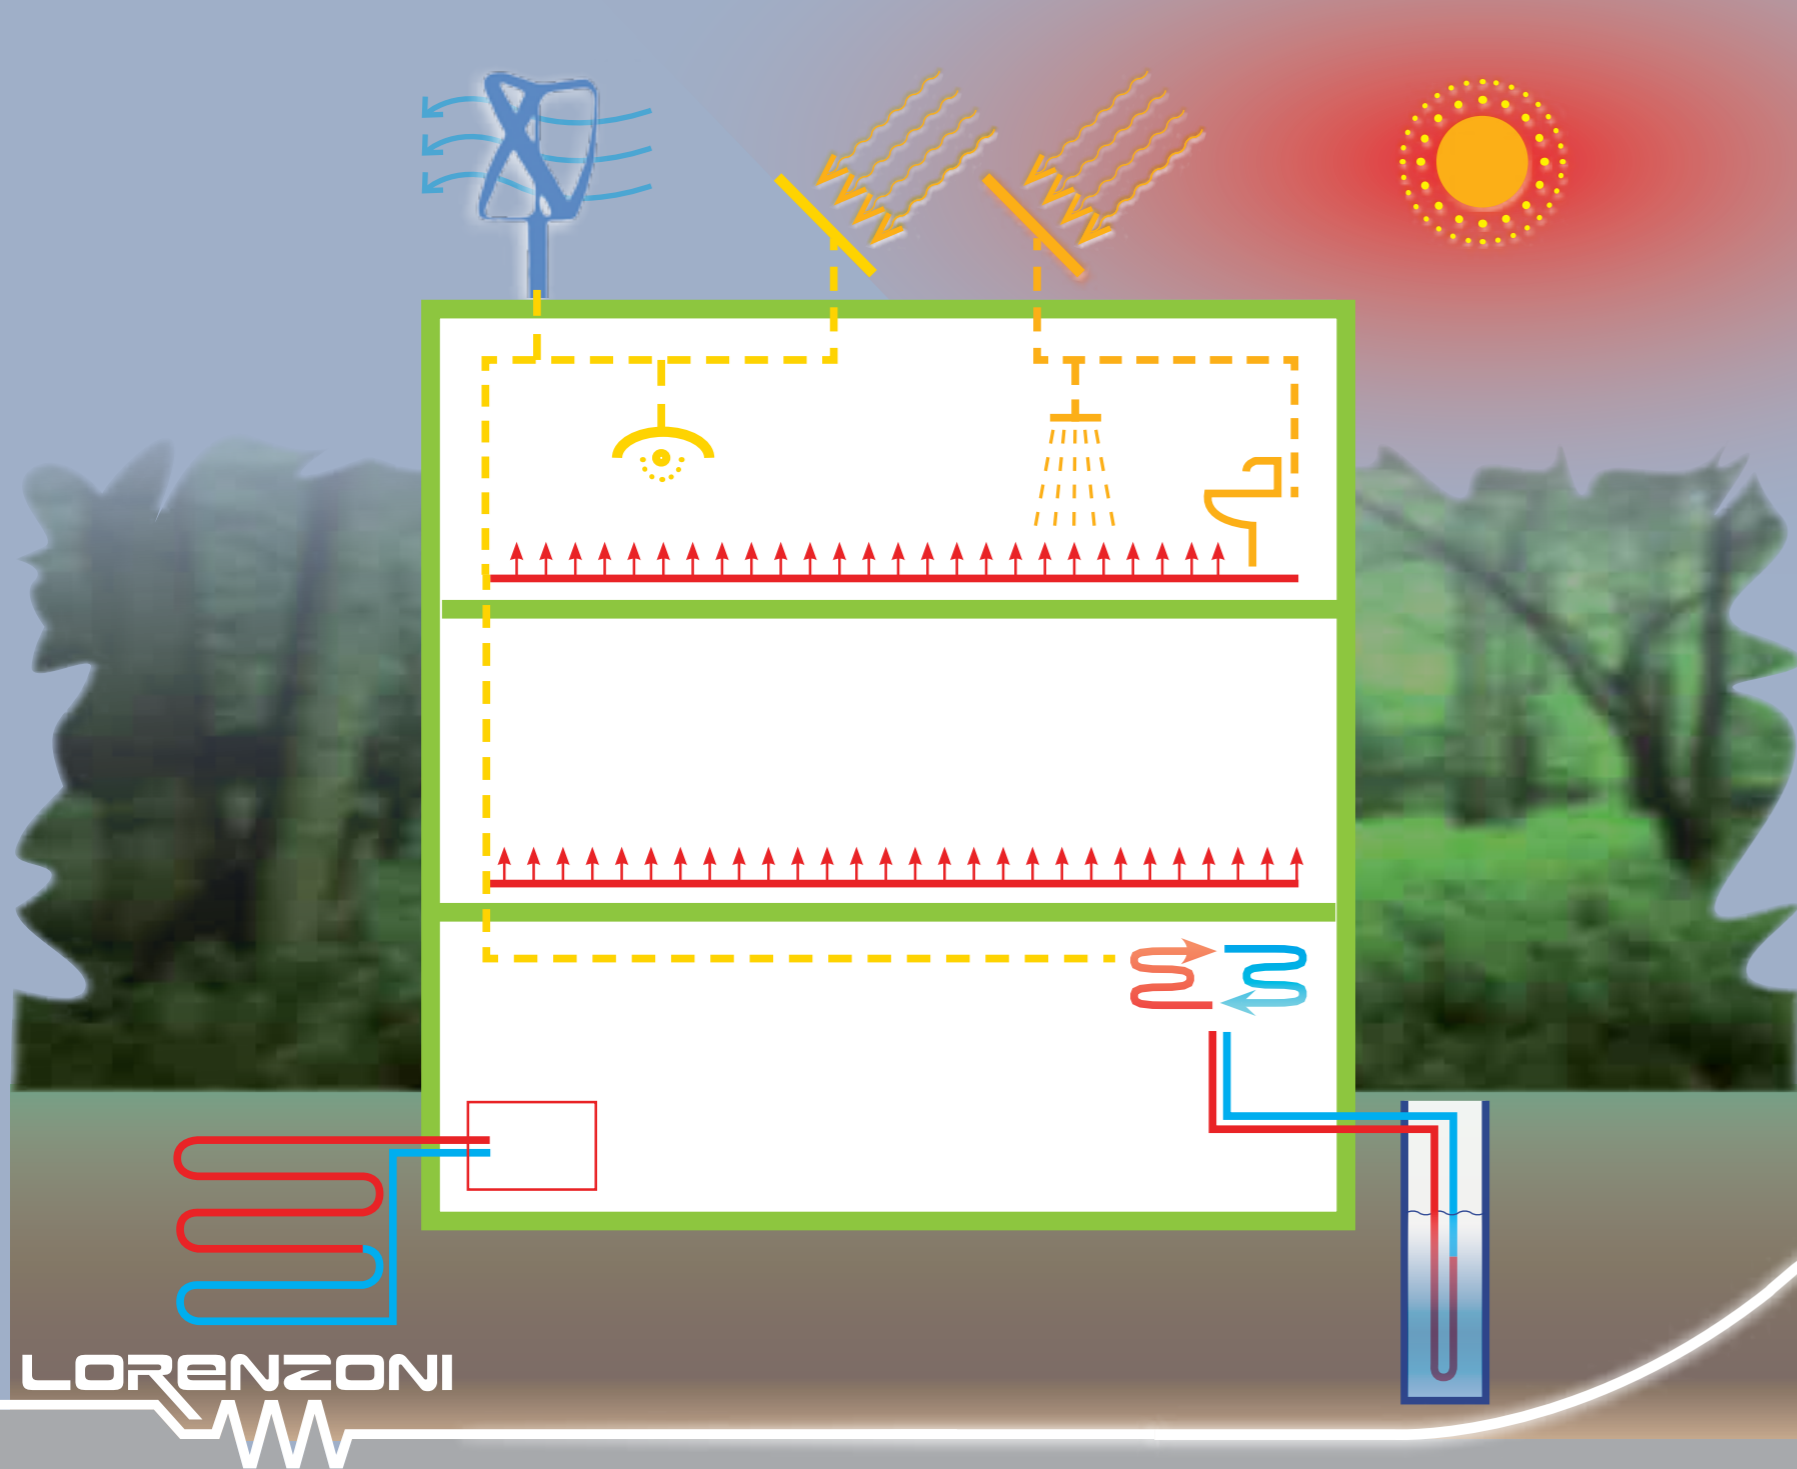

WELLNESS

THE WORKING PRINCIPLE OF ELECTRIC RADIANT FLOOR HEATING CREATES A HEALTHY INDOOR ENVIRONMENT THAT COLLABORATES TO MAINTAIN GOOD PHYSICAL COMFORT. EVERY MOMENT OF YOUR LIFE CAN FIND ITS OWN MICROCLIMATE SUITABLE FOR ITS SPECIFIC NEEDS

LORENZONI

RENEWABLE ENERGY

THE USE OF RENEWABLE CLEAN ENERGY WORKS SEAMLESSLY WITH THE HEATING CABLES, BY PURSUING THE COMMON GOAL OF ENVIRONMENTAL SUSTAINABILITY AND SAVINGS

COMPANY AND PRODUCTS

LORENZONI S.r.l. is founded in 1956 by Giuseppe Lorenzoni, working in the field of **ELECTRIC HEATERS** by offering its products to national and international markets.

Experience, professionalism and ability to customize the product alongside with the customer, to make innovative and excellent work quickly and cost-efficiently.

PRODUCTS:

ELECTRICAL RESISTORS

INSTRUMENTATION

CIVIL/INDUSTRIAL HEATING CABLES

LORENZONI S.r.l. SUPPLIES:

AGFA
EDISON
ENEL
ENI
SAPIO
RS COMPONENTS
SAIPEM

COFFELI
BAULI
SANSON
DANIELLI GROUP
NESTLÉ GROUP
SIRAM
MARZOTTO Spa

CHEMICALS Spa

CREDITS

CORTINA MULTIFUNCTIONAL CENTRE:

no-frost ramps, roofs, gutters and downpipes

MAELLE VILLA IN BASSANO DEL GRAPPA:

no frost ramps

VIMAR Spa IN MAROSTICA:

no frost ramps

VERONA BUISNESS AND COMMERCIAL CENTRE:

no frost ramps

VERONA: no-frost city centre underground parking

CORTINA: no-frost heliport platform

FELTRE: no-frost heliport platform

SITE OF "SOLE 24 ORE" IN MILAN:

no-frost ramps, roofs, gutters and downpipes

COMPLEMENTARY WORKS AT THE A27 MOTORWAY:

no-frost bicycle path, walkway and bridge

EDISON MARGHERA:

tracking heating cable for instrumental lines

CAFFARO CHEMICAL:

tracking heating cable for chemical plant

ASIAGO HOSPITAL:

no-frost roofs, gutters and downpipes

SANPELLEGRINO Spa:

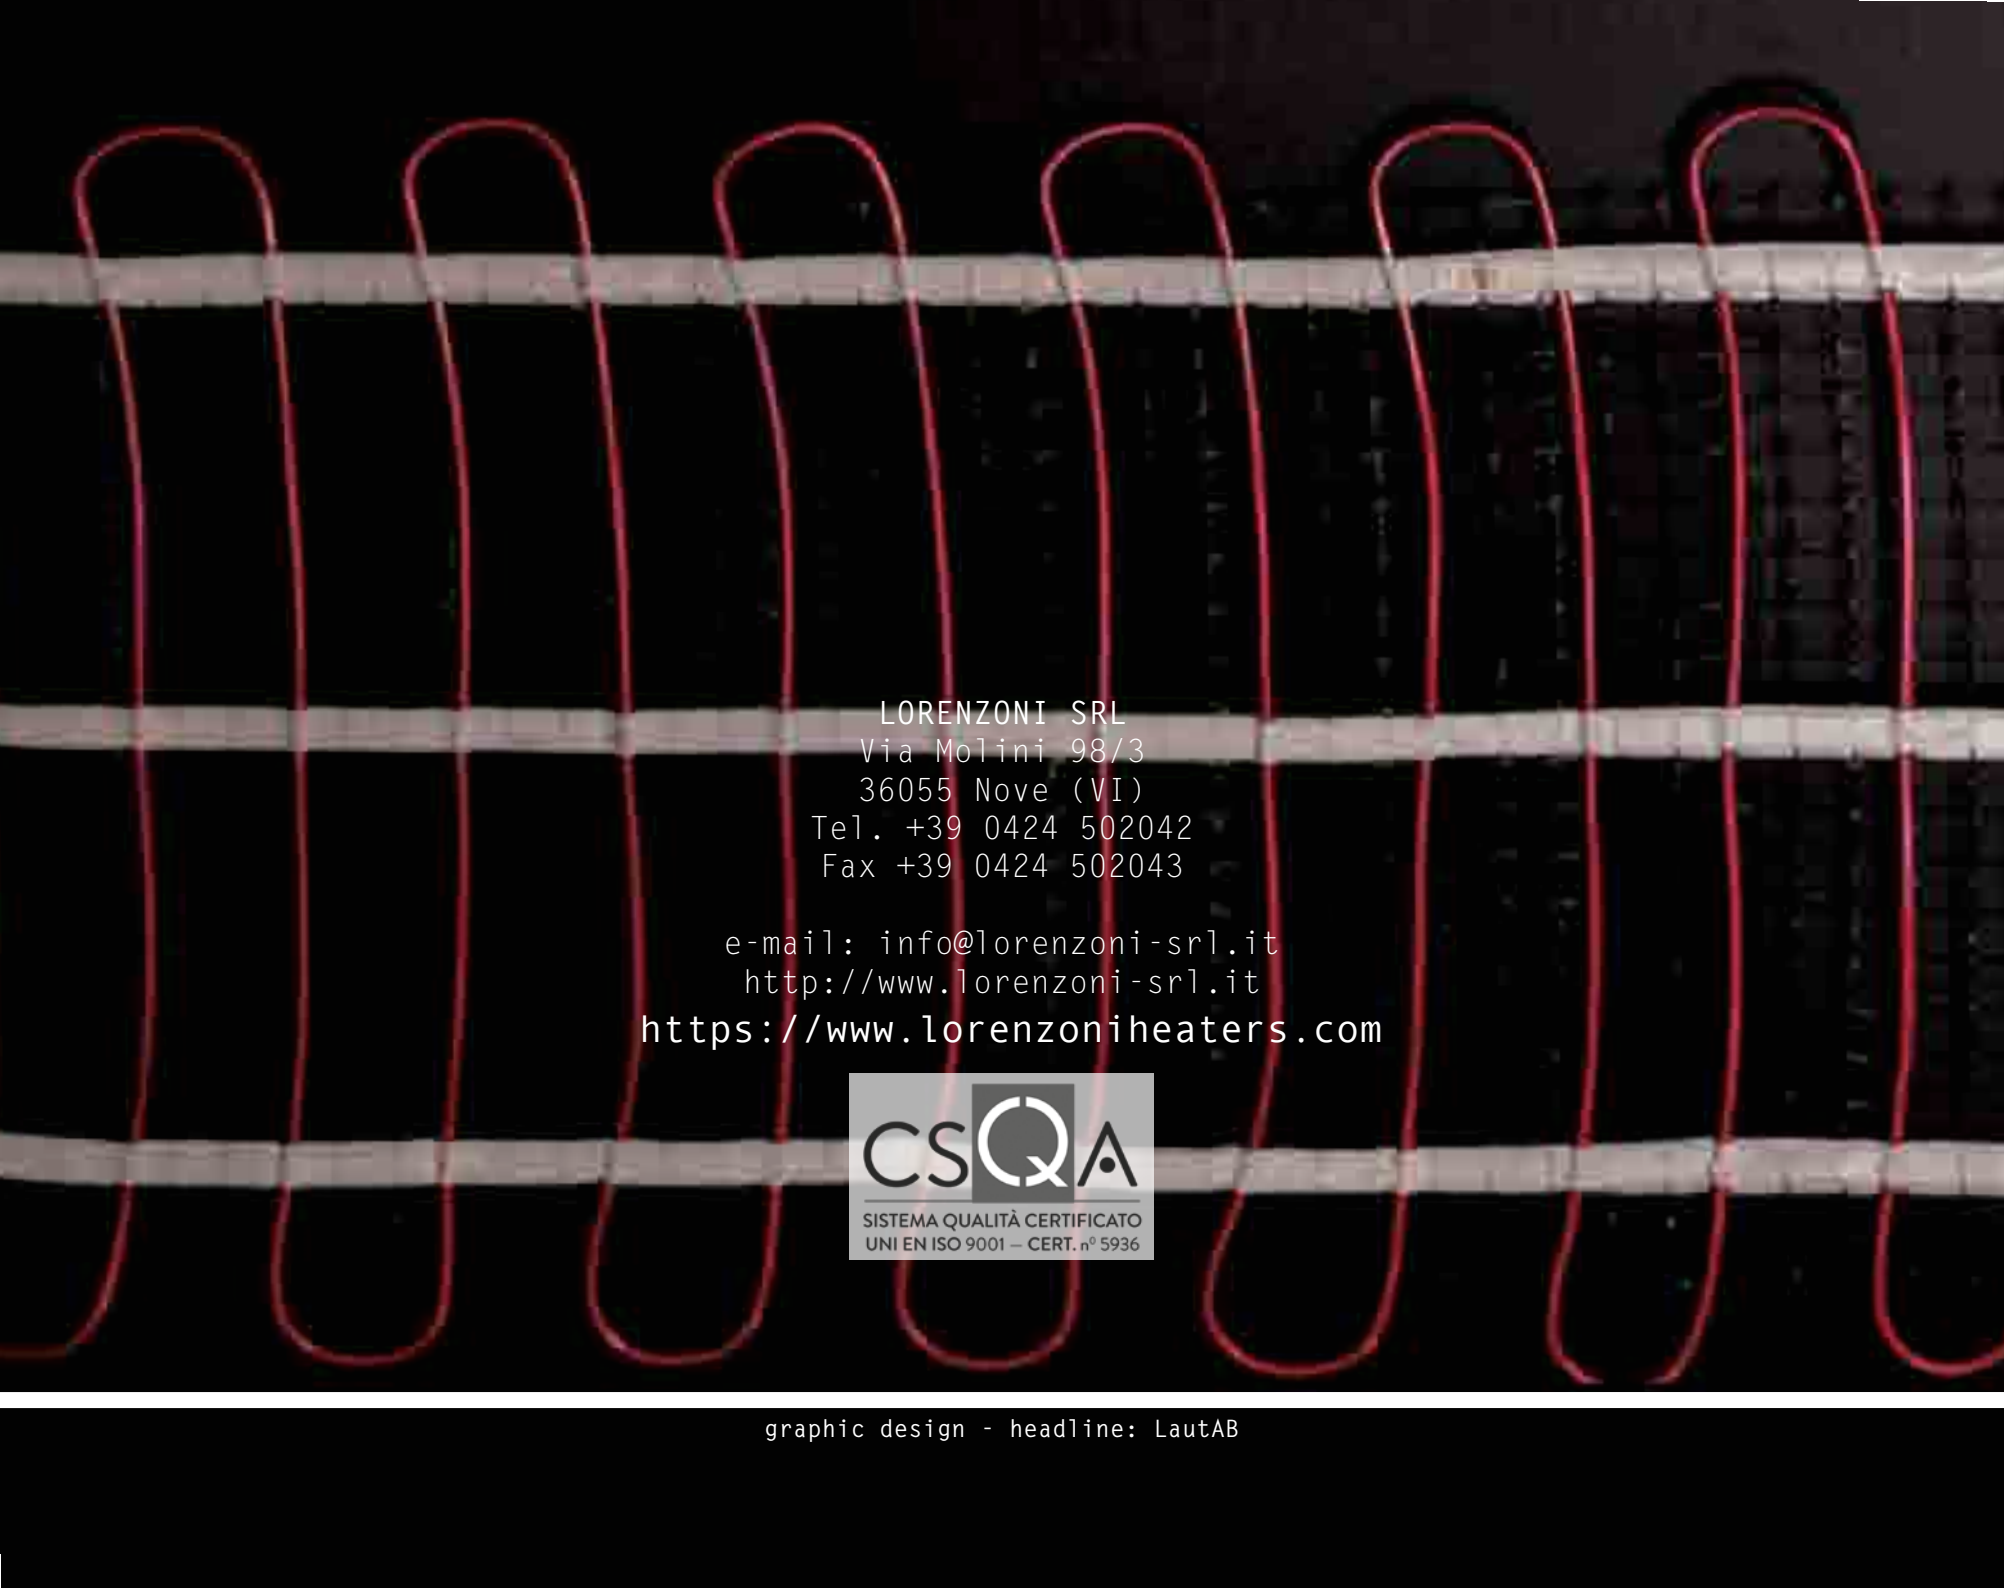

electric batteries supplies

SAIPEM DI FANO:

heaters on flange supplies

EDISON IN PIOMBINO: temperature maintenance system

ROMA, VIA FLAMINIA: no-frost ramps and parking
