# LOR-PANEL4PV ANTIGELO PER PANNELLI FOTOVOLTAICI - NO FROST FOR SOLAR PANELS

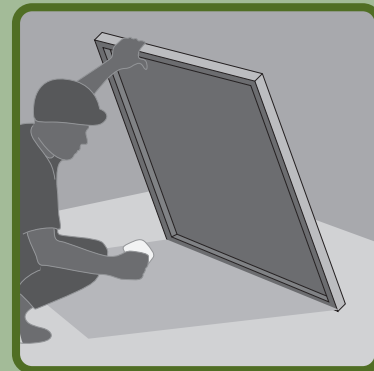

Cavo scaldante applicato su pellicola adesiva in alluminio, specifico per impedire la formazione di ghiaccio e neve su pannelli fotovoltaici. Completo di connettori elettrici. Il pannello adesivo rende la posa pratica e veloce.

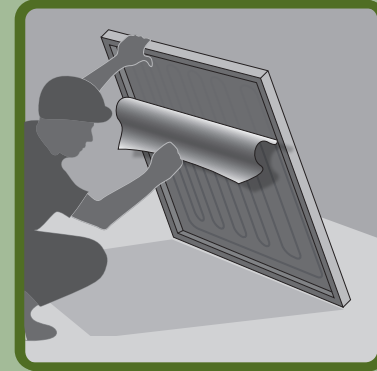

Heating cable applied on aluminum adhesive foil, specifically to prevent the formation of ice and snow on solar panels. Complete with electrical connectors. The adhesive panel makes installation easy and fast.

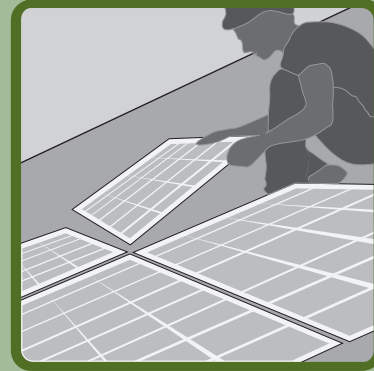

## KIT COMPLETO pronto da installare - COMPLETE KIT ready to install

**1** pulizia del lato posteriore dei pannelli solari  
cleaning of the back face of the solar panels

**2** rimozione della pellicola protettiva e applicazione al pannello  
removal of the protection film and application to the panel

**3** installazione dei pannelli solari e connessione dei cavi (fino a 12)  
installation of the solar panels and connection of the cables (untill 12)

SPECIFICHE TECNICHE	
• Tensione nominale:	230 Volt
• Potenza:	300 W (-10% +20%)
• W/m:	14,5
• Temperatura max di funzionamento:	+105 °C
• Grado di protezione:	IP67
• Materiale:	Silicone - PVC
• Nr. max di pannelli collegabili:	12
TECHNICAL DATA	
• Rated Voltage:	230 Volt
• Power:	300 W (-10% +20%)
• W/m:	14,5
• Maximum operating temperature:	+105 °C
• Protection level:	IP67
• Material:	Silicon - PVC
• Max n° of panels to be connected:	12
